Complete all the Passport Learning Page activities to become a Cow Club Member! Colour your Cow Club stamp!

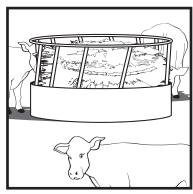

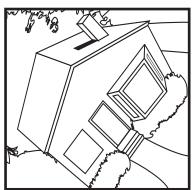

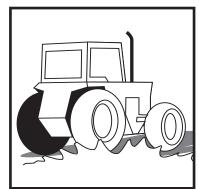

Colour the places you would find.

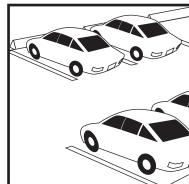

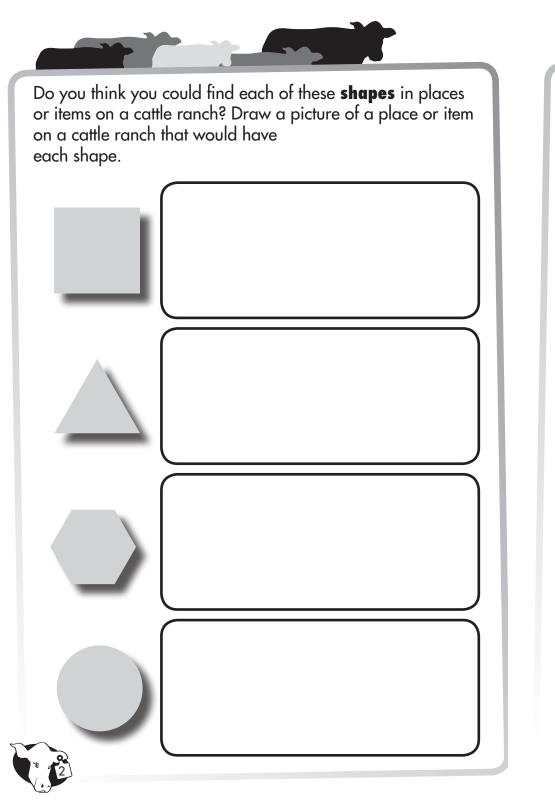

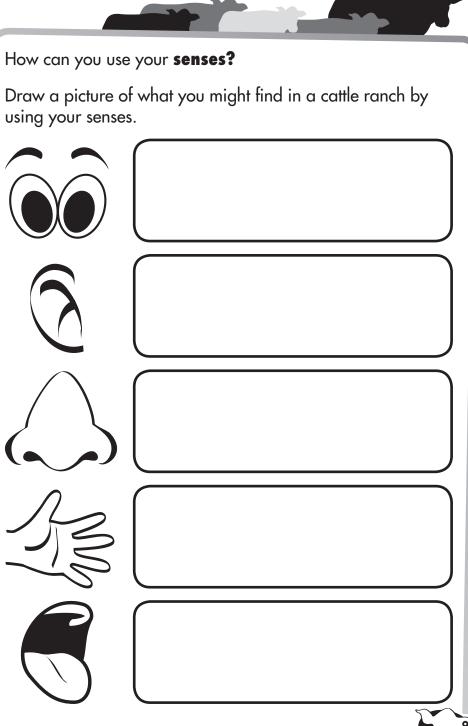

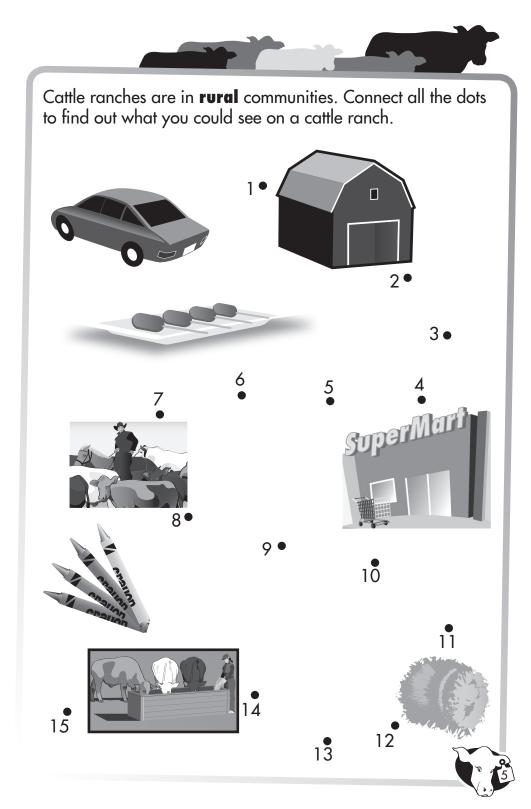

Do you live in an urban or rural community?

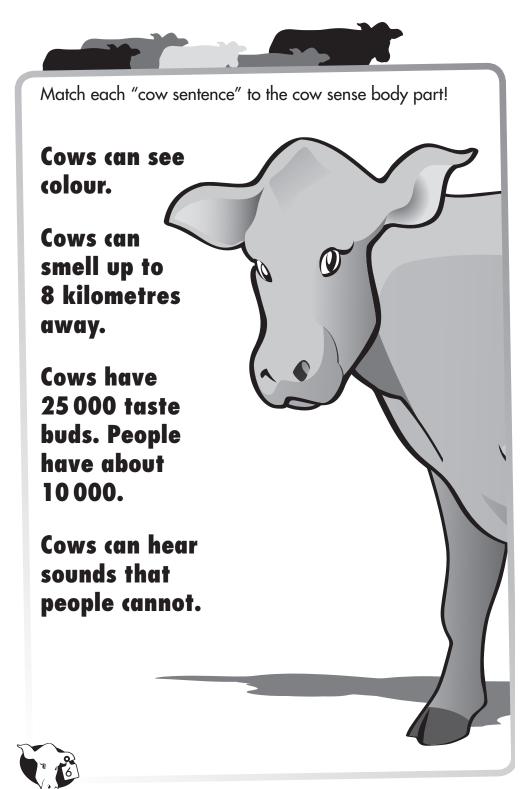

## Urban

## Rural

Draw a picture to show a place you might find in the type of community **opposite** from which you live.

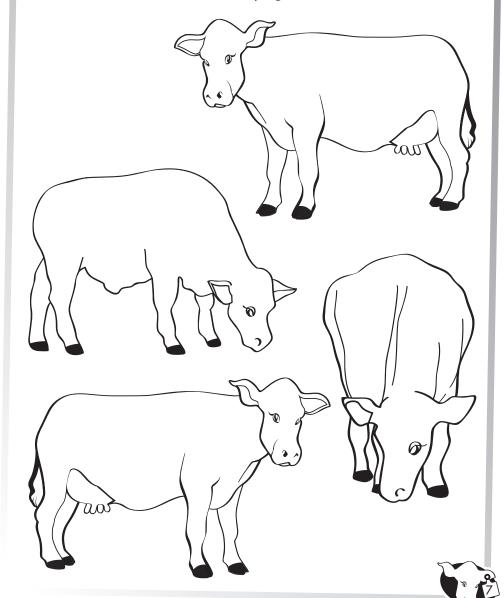

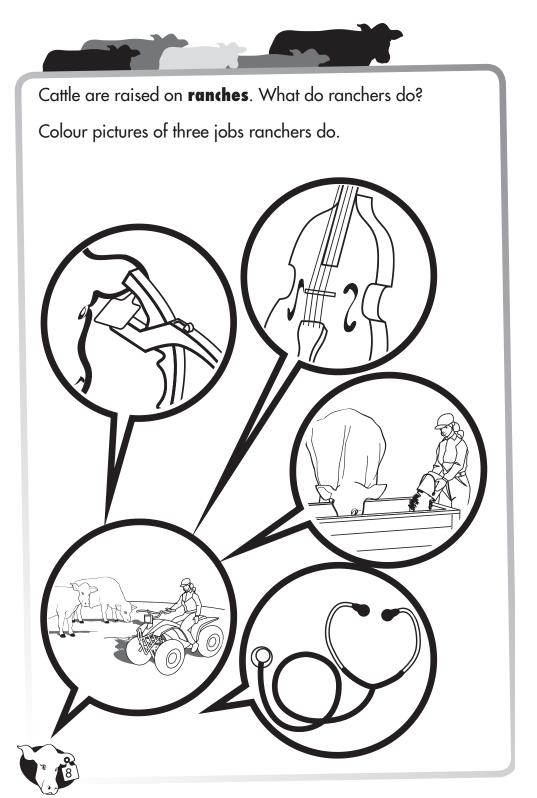

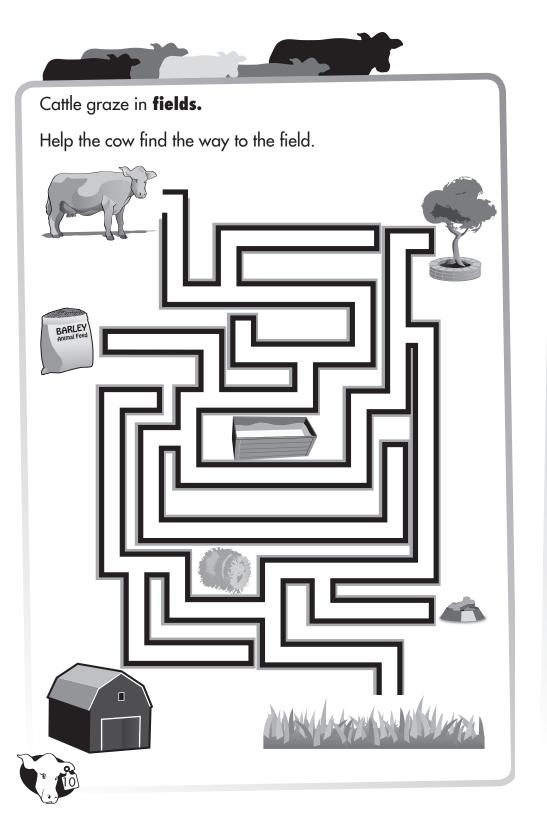

Cattle are different colours. They can be white, black, brown, reddish brown and tan. Did you know that no two cows have the same colour pattern or spots?

Make each of the cattle on this page a different colour.

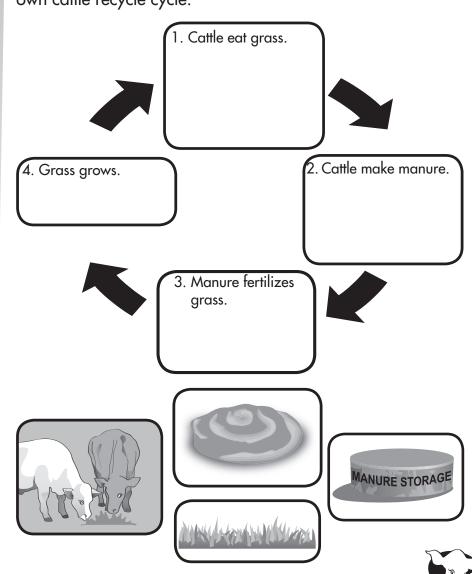

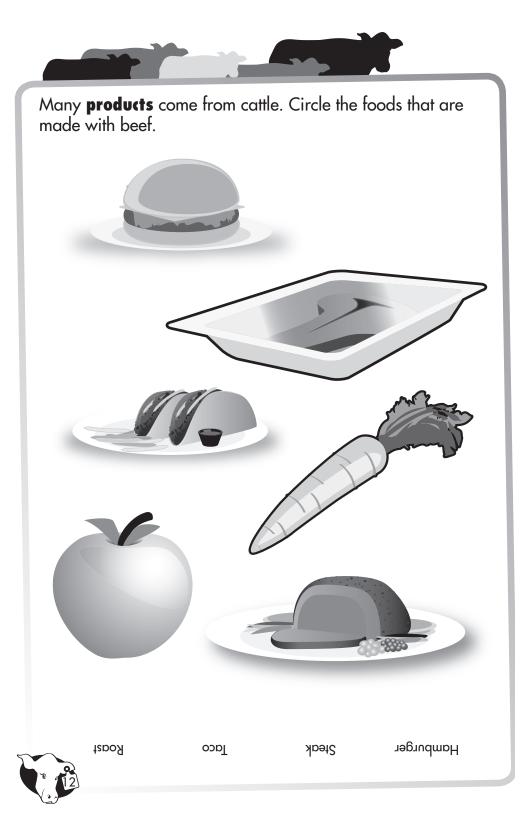

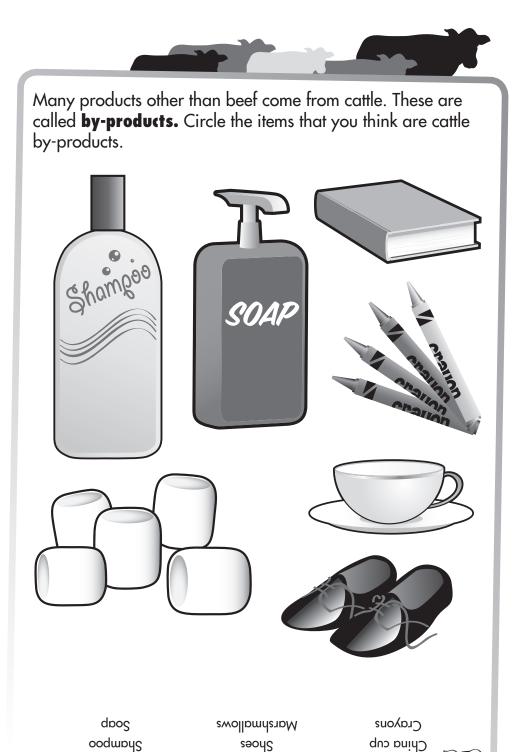

Cattle help the **environment.** Their manure fertilizes fields and crops.

Look at the pictures below. Match them with the words in the **recycle** cycle. Draw the pictures in the boxes to make your own cattle recycle cycle.

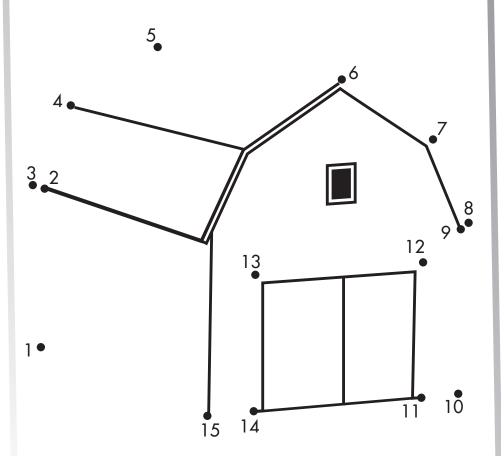

Connect the dots. Then, draw three beef products or by-products that you use inside or around the picture.

What **nutritious** food choices do you make? Pick some of these foods. Make your own nutritious meal by drawing it on the dinner plate. Add choices to make sure you include the four main food groups.

**Grain Products** 

**Vegetables and Fruit** 

Milk and Alternatives Meat and Alternatives

FAST FACT
Nutritious foods
help the body
grow and stay
healthy.

There are a **variety** of ways that beef can be used in meals.

Find the different beef dishes in the picture!
